React Frontend Developer skilled in designing and implementing responsive user interfaces. Proficient in modern JavaScript libraries, I create dynamic web applications with a keen eye for detail. A collaborative team player, I contribute to innovative projects, staying updated on emerging technologies in frontend development.

PERSONAL PROJECTS

Find My Doctor

I led the creation of a robust web application built on React.js. This platform empowers users to seamlessly schedule appointments with doctors, access lab services, purchase insurance, and manage pharmacy needs. Behind the scenes, an efficient admin portal ensures smooth oversight of these operations by administrators.

- User App
- Doctor Portal
- Admin Portal
